

Please don't take K-Love off of the air! It is a wonderful service, offering wholesome and uplifting music and commentary that is much needed in this day and age. Most stations have talk and music that is questionable, at best, for adult ears, let alone when children are listening. With K-Love, I can count on broadcasting that is safe for ears of all ages. K-Love is so unique in this respect (it has NO vulgar language, sexual innuendos, or violence in any music or talk), that I can't imagine the devastating effect on the community and our family if this dear friend is taken off the air. Thank you for taking our interests into consideration!
